

Black Business Supplier Development Programme (BBSDP) online application system

The Black Business Supplier Development Programme (BBSDP) online application system is now functional and all BBSDP applications will, with immediate effect, be submitted **only** electronically.

The BBSDP online application system can only be accessed by **the dti** accredited Network Facilitators. This, therefore means clients are not in a position to complete and submit online applications individually but should contact a Network Facilitator on the Network Facilitator list available on **the dti** website should they wish to apply for the BBSDP.

The link for the BBSDP online application system is <http://iims.thedti.gov.za/>
